Other awards	>=\$35,000	(Full award value)-(baseline salary)	\$0	\$0

Notes

1. All values shown are per annum, and encompass the duration the award is held
2. GPN minimums are \$22,500 for MSc students and \$26,000 for PhD students
- 3*. When one award is held, baselines are calculated from GPN minimum; for multiple awards, each award adds own minimum increase above GPN minimum
- 4**. Supervisor contributions listed here are for one held award. Contribution values will change if multiple awards are concurrently held.
- 5***. Note that PhD students entering directly from a bachelor's program may be eligible for a CGS-M
6. Top-offs amounts listed are for competitive awards. Non-competitive awards are paid fully to the graduate student (i.e. complete top-off).
